The student's name and school is displayed as well as their most recent access time, their total seat-time for the current week, and the number of activities completed during that week.

Student Reports

When viewing reports, you will be shown results for the currently selected student.

Attendance Log
View active time, idle time, and number of activities completed between any two given dates. Results are grouped by week > day > course.

Progress Report
View detailed information for each course, including: course completed (%), overall grade (%), grade weight, as well as course start and target dates.

Do you have more than one student? You will need to request an activation code for each child, then repeat all the steps on this page. A password will only need to be created with the first child, any child thereafter, creating a password will not be required.

Once the additional student(s) has been added, you can toggle between them using the select student feature on the top right.
