

Meet Dr. Kennerly

Welcome to Sixes! I am so excited to be joining the “Sixes Star Family” as the newly appointed principal of Sixes Elementary. It is an honor to serve in a school that has such rich traditions, high academic standards, and a thriving community. I look forward to continuing the tradition of excellence through collaboration with all stakeholders and using innovative, research-based practices in the classroom. As a graduate of Woodstock High School, I am thrilled to be able to give back to the community and help create memorable, meaningful experiences for our students and families.

During my experience in education, I have taught Kindergarten, first grade, fifth grade, and intervention programs in a variety of settings with students in grades K-5, as well as served as an Assistant Principal - all within Cherokee County! To prepare for these classroom experiences, I earned a Bachelor of Arts from North Greenville University, a Master of Science from Walden University, an Education Specialist from Piedmont College, and a Doctor of Education from Liberty University. In addition, I have also earned endorsements in Gifted Education and ESOL.

As an instructional leader, I value relationships and the partnership that is built between students and families. This lays the foundation for rich instruction and deep learning. I maintain open communication and value the role that parents play in their child’s education. I am a firm believer in strong, positive culture, and I work to show students I care through smiles, high fives, hugs, and being involved in daily and extracurricular events throughout the building.

My family and I are proud residents of Cherokee County and enjoy spending time on the lake, travelling, and watching the Atlanta Braves and Tennessee Vols! I am looking forward to the very BEST year YET!

We shine the BRIGHTEST when we shine TOGETHER!
