Parent Resource Center

What is the Parent Resource Center?

The Parent Resource Center is a wonderful place for you and your child to work together to become the best student he/she can be. The Parent Resource Center has a collection of educational materials, games and activities that parents can check out to practice skills and help their children at home. This Parent Resource Center is part of our **Title I program**, and our goal is to support students and families with their educational needs.

The Parent Resource Center is located in Room 403. You can come in and check out the materials **Monday—Friday from 9:00 to 1:00 PM**. We hope that you enjoy and take advantage of the Parent Resource Center.

- ❖ Books with different Titles for you to read with your child.
