

The following information is from Microsoft detailing recommended hardware requirements for the use of Office 365. This can also be found at <https://products.office.com/en-us/office-system-requirements>

COMPONENT REQUIREMENT

Computer and processor Windows: 1.6 gigahertz (GHz) or faster, 2-core

macOS: Intel processor

Memory Windows: 4GB RAM; 2 GB RAM (32-bit)

macOS: 4 GB RAM

Hard disk Windows: 4.0 GB of available disk space

macOS: 10 GB of available disk space. HFS+ hard disk format (also known as Mac OS Extended or APFS)

Display Windows: 1280 x 768 screen resolution

macOS: 1280 x 800 screen resolution

Graphics Windows: Graphics hardware acceleration requires DirectX 9 or later, with WDDM 2.0 or higher for Windows 10 (or WDDM 1.3 or higher for Windows 10 Fall Creators Update).

macOS: No graphics requirements

Operating system Windows: Windows 10, Windows 8.1, Windows 7 Service Pack 1, Windows Server 2016, Windows Server 2012 R2, Windows Server 2012, or Windows Server 2008 R2

macOS: Office for Mac is supported on the three most recent versions of macOS. When a new version of macOS is released, the Office for Mac Operating System requirement becomes the then-current three most recent versions: the new version of macOS and the previous versions.

Product functionality and feature availability may vary on older systems. For the best experience, use the latest version of any operating system specified above.

Browser The current version of Microsoft Edge, Internet Explorer, Safari, Chrome, or Firefox. [Get more details.](#)

.NET version Windows: Some features may require .NET 3.5 or 4.6 and higher to also be installed

Other Internet functionality requires an Internet connection. Fees may apply

A touch-enabled device is required to use any multi-touch functionality. But, all features and functionality are always available by using a keyboard, mouse, or other standard or accessible input device. Note that touch features are optimized for use with Windows 10 or Windows 8.1.

Product functionality and graphics may vary based on your system configuration. Some features may require additional or advanced hardware or server connectivity.

Microsoft account and/or organizational account is required for licensing and to access services.

Skype requires a standard laptop camera or USB 2.0 video camera, a microphone, and an audio output device in order to utilize its full range of calling features.
