

**I. GENERAL POLICY**

It is the policy of the Cherokee County Board of Education to make buildings, facilities and grounds available to the community when not in use for school activities, subject to the requirements specified herein.

Permission for use of School District facilities does not constitute an endorsement of any organization, the beliefs of the organization or group, nor the expression of any opinion regarding the nomination, retention, election or defect of any issue.

The School District reserves the right to withhold approval or to cancel any and all use of facilities when it is deemed that such action is necessary for the best interest of the School District and/or its students.

Certain uses of facilities requires the payment of a rental fee in accordance with the rental schedule maintained by the School District. In establishing the user fee, the School District finds that the imposition of higher fees is required for use by certain groups and for uses of facilities on weekends, holidays or during the summer due to, among other things, increased administrative burdens related to community use of facilities on those days. These increased burdens include, by way of example, making arrangements for heating, ventilating, air conditioning; availability of adequate custodial staff; security measures; rescheduling planned maintenance and repairs; increased traffic, parking; increased wear and tear on School District facilities.

All potential users of School District facilities will defend and indemnify the School District and any persons whose property may be within said building for loss or damage to such property caused by any person or persons attending said meeting or any damage or injury arising by reason of any use of facilities. The School District requires users provide evidence of insurance for coverage and amounts satisfactory for indemnification and defense to the School District.

The School District reserves the right in its discretion to require a performance bond or a deposit for the protection of facilities and equipment and to guarantee the payment of user fee and expense.

Potential users are required to submit, prior to use of a facility, a district Facility Use Application which must be signed and approved by the Principal/Work Location Supervisor and the Office of Support Services.

The School District through the School Board, Superintendent, principal, or their designees may bar or terminate facilities use by any group or organization which has in any way misused or damaged any facility.

The School District herein differentiates uses of facilities into the following categories based upon the potential use of School District facilities, as well as, the purpose of the group making use of the facilities.
