Once you download the Parent App from the App store, you can create an account in the Canvas Parent app. As part of creating an account, you can associate a student with your account. You must know the student’s network ID and password. Please note: these are different than the student ID and GTID numbers. Your student can provide you with their network ID and password they use to login at school.

If you already have an observer account from your student’s institution, you will still need to create an account in the app, however, you can use the same Canvas credentials to log in on both platforms. Also, please understand CCSD is unable to troubleshoot app accounts.

The app provides access to the course name, the grade, and the calendar only. If you are looking for a robust interface with the Canvas platform, log into your web-based Canvas Parent Account via a laptop or desktop.

Notes:

- If you receive an invalid username or password message during the signup process and the student's credentials are correct, check with the student to verify that he or she has provided the correct network ID and password.

Open App

Tap the Canvas Parent icon on your device.

Create Account

Tap the Create Account link [1].

Note: If you already have a parent or observer account in Canvas, you can log in to the Canvas Parent app using your Canvas credentials [2].
Create Account Details

Enter your first name [1], last name [2], and email address [3]. Enter a password [4] and confirm the password [5]. Tap the Create Account button [6].

Add Student

Tap the Add Student button.
Enter Institution

Enter Cherokee County Schools - GA [1]. Tap the Go button [2].

Select Student Login

Canvas Learning Management
Enter Student Login

Enter your student's network ID [1] and password [2]. (Note: student can provide parent with this information. These are the same credentials used to log onto computers at school.) Tap the Log In button [3].
