

Clark Creek STEM Home Challenge

Gifts for Our Garden

How can you use recycled items to enhance our garden?

To participate in this home challenge, you will need to use recycled materials to design and create something that can be used in our school garden. *Examples include, but are not limited to, tools to make gardening easier, objects to collect garden/weather data, items to attract wildlife, decorative elements, etc.*

At least one recycled item such as plastic bottles, cans, caps, etc. that can withstand different weather conditions, must be used. *Follow the engineering design loop, have fun and BE CREATIVE!*

We will display all of the creations! Students who participate will have their name entered in a drawing for a pizza party in the school garden.

**Entries due to Ms. Garland by Monday, February 12.
Karen.garland@cherokee.k12.ga.us*

Clark Creek STEM Home Challenge

*Please complete and attach this form to your project to be entered in the drawing for the pizza party, which will be held in the garden.
Date to be determined.*
