

## FMS History

Freedom Middle School was opened in the shadow of the 9/11 attacks on the World Trade Center. Liberty Elementary School opened a couple of years earlier in that same shadow which is located next door. A student committee was gathered to name the two schools which were eventually badged in honor of those attacks. FMS and LES stand as reminder and tribute to those who lost their lives during that terrible event in American history. We continue to exist to honor the men and women who have served and are currently serving our military and our first responders who keep us safe.
