

Login for Teachers and Students for My HRW Math

Use of the HMH Math at School:

- Students and Teachers will access program using single sign-on (SSO) process.
- To sign-on, teachers and students must first login on a networked computer using their username and password.
 - Once logged in on a networked computer, teachers and students should use the following link <https://my.hrw.com/sp/access?sp=hrw&connection=GA-Cherokee-00208707> to access their course. This link should be placed on the teacher's Aspen page. Please note that the link has been placed in the Internet Explorer favorites to offer easy access for Middle School Students by clicking on the **Go Math (My HRW Math)** link and for MS/HS Teachers and High School Students in Algebra I, Geometry, Algebra II by clicking on the **Myhrwmath** link.
- Students need to be reminded that they should properly log off the computer when their session has finished. Logging off will help prevent students from accessing and/or using another student's My HRW Math account.

Use of the HMH Math at Home for Teachers and Students:

- All Teachers and students can access the HMH Math Instructional Lessons at home 7 days a week.
- Students should access their CCSD login page, which is the same as the Office 365 site. Once logged into the CCSD site, they should follow the same instructions as above to access the site.

*Note: The link to My HRW Math will not show in their favorites at home, we can only control what they see at school on school computers. **Teachers can add the link to their Aspen page or the school can add a link on their main website.** Students do not necessarily need to login to Office 365, if they click on the "My HRW Link" at home it will take them to

the 365 login page, once they enter their credentials then they will continue to the My HRW Page.

If the link is not on the school homepage or not on added to your Aspen page, then students should just directly use the link provided above in the web address bar and then login in.

link <https://my.hrw.com/sp/access?sp=hrw&connection=GA-Cherokee-00208707>

Special Notations:

- It is suggested that the Math program “home link” be placed on school websites and/or ASPEN teacher pages for students to have easy access to the program link.
- The Division of Technology Services will be doing nightly uploads/updates to the HMH Program for the MS Go Math and HS Algebra I, Geometry and Algebra II courses. The information uploaded nightly will include newly enrolled students, student withdrawals, and student schedule changes. Accordingly, teachers will not need to manually add students to the HMH program. The updates to the HMH program will be dependent upon the timeliness of information being entered into ASPEN.

You could email your students the link so that they will have it. <https://my.hrw.com/sp/access?sp=hrw&connection=GA-Cherokee-00208707>

On the district site under learning tools <http://cherokeek12.net/learning-tools/> is a link to GO Math which is the same as My HRW Math. The GO Math link will work for your students.

If you have any questions or concerns, email your CCSD Content Coach.
